

Dear Readers,

We are pleased to share with you the new issue of 2023.

We inform you with great pleasure that our journal will begin to be indexed in the DOAJ and CNKI before January 2023.

During 2022, we had published 4 issues of 63 articles (12 case reports, 5 invited reviews, 1 editorial, 1 letter to the editor, 1 image, 43 original articles).

Our journal's stakeholders, readers, editors, advisory board members and reviewers have made valuable contributions to achieving these goals with studies of high levels of evidence. Together with your support, we will continue to work towards publishing Turkish Journal of Nephrology according to the international academic publishing standards.

1

We wish you all are very happy and fruitful new year.

Sincerely,

Editor in Chief

Rümeysa Kazancıoğlu
